It Isn't What You Make-- It's What You Save!

THREE PER CENT interest a year on savings accounts is not a "get-rich-quick" method, but it is CONSIDERABLE because of the security offered at the Marion Bank, that is completing a new home for its depositors, and find every facility to assist them in the accumulation of a competency.

Besides the 3% interest we pay your taxes on money left with us. We provide ample protection in the way of INSURANCE and burglar proof vaults and safes. Government Bonds left with us by our customers are fully insured against burglary. Can you beat it?

INCREASE SHOWN IN VALUES

1920 Figures More than Double
Those Of Ten Years Ago

Taxes being a subject of vital interest to all, indeed, the most vital of all subjects, because it comes nearer "touching" a fellow's pocket book than any debt or obligation he has to meet. Speaking of taxes calls our attention to the amount of taxable property in Crittenden County, and their rapid increase within the past few years. Who, in 1910, would have so much as have guessed that the taxable property ten years hence would have more than doubled in value, the amount of property in 1910, subject to taxation was \$3,020,953 and the amount of taxable property in 1920 was \$7,315,370, which is an increase over last year, last year's assessment showing \$7,210,055.

The hills, hollows, river bottoms and all kinds of land in the county aggregate 222,714 acres, on which the improvements are valued at \$905,305, and the total value of land, timber and improvements being \$3,978,825.

Ten years ago the mining industry in this county was not very extensive but the present assessment shows \$223,320 of mineral rights and leases. Judging from the horses one sees on jockey lot on a County Court day, you would not place a very large value on the live stock in the county and will be surprised to know that the total value of all the live stock in the county amounts to \$963,355.

Ten years ago there was not an automobile listed for taxation and the assessment this year shows a valuation of \$83,280 placed on automobiles and in addition to this there is a value placed on motor trucks of \$17,015.

The three banks in the county have a total value of bank shares of \$89,035.

If you were left to guess the number of "Old Dog Rings" there are in the county you would not guess under a million, but you would certainly miss for there are only listed for taxation 1,278 of these beloved canines.

The taxes which will be collected from the assessment will amount to about \$105,000.

ERNST ENTERS SENATE RACE

CANDIDATE NOTED FOR EXTENSIVE CHARITY WORK

EDUCATOR AND "Y" LEADER

Ardent Supporter of Movement To Wipe Out Illiteracy

It is hardly necessary to introduce Richard P. Ernst, whose candidacy for the United States Senate has just been announced, to the average Kentuckian.

His name has appeared throughout the state in connection with charitable movements, war campaigns, church and missionary work and drives to aid the schools and school teachers, especially in the mountain districts.

His charitable work, aggressiveness and progressiveness in civic movements and personal popularity have made him one of the most generally admired men in Northern Kentucky.

His extensive work in the interests of his state and its people began immediately upon Mr. Ernst's graduation from the famous Old Centre College, Danville, where he was valedictorian of his class.

Admitted to Bar.

He was admitted to the bar in Kenton county after examination by Senator John W. Stevenson and Judge William B. Arthur and since has practiced law in Covington and Cincinnati with the same aggressiveness and success that have featured every movement worth while into which he has directed his efforts.

Glancing over the long list of his activities one can see that he continually has enlisted himself in movements in which he could accomplish best results for the people.

This body of men have been accused in times gone by of being more or less slothful and dilatory. Monday night's meeting proved that they are at least injecting a few modern ideas into the conduct of the affairs of the city.

A number of "lobbyists" were on hand to ask that a "chicken law" be passed, which was done after some discussion by members of the council and others. Some argued that it would be a hardship on some people to have to build a fence around their property to keep their chickens in as wire was high and hard to get at any price.

Others came back with the idea that it was just as much hardship on the people without chickens to fence their property to keep the neighbors chickens out, and besides a person has no more right to raise their chickens on some one else's property than they did a crop of corn.

The council voted the ordinance unanimously requiring owners of chickens to keep them confined to their own premises.

The matter of the purchase of a fire truck equipped with the necessary apparatus for extinguishing fires came before the council. It was explained that with this apparatus costing only \$2500 would save the residents of Marion about \$5000 annually in fire insurance premiums, providing the city have the necessary volunteer fire department.

It was voted that the truck be purchased, the vote being as follows:

Yeas, R. F. McConnell, Levi Cook, R. F. Haynes, Nays, Charles Daughtry, W. T. McConnell, H. V. Stone.

Vote being three and three it was necessary for the Mayor to cast the deciding vote, which was for the purchase of the apparatus.

No explanation of their vote was offered by the councilmen voting, so it was not known whether it was because the idea of another big fire caused them no uneasiness or from mistaken ideas of economy.

The fact that Morganfield, Providence and other cities of the same class as Marion are doing much street improvement work this year the matter was brought to the attention of the council. This work is done at the expense of the property abutting the improvements, the cost being spread over a number of years, usually ten. The majority of the councilmen thought it was about time for Marion to get out of the cross roads class as far as streets are concerned and voted to assess all permanent improvements in the above mentioned manner and begin to go somewhere.

All the councilmen voted in favor of this measure except Mr. Charles Daughtry.

Last but not least we get down to the water works proposition. Mr. Fred T. Thayer, hydraulic engineer from the Layne & Bowler Co. of Memphis was present and outlined a plan whereby it would be possible for Marion to have this one convenience that Kuttawa, Vine Grove and other large cities of less than a thousand inhabitants found out years ago that they could not get along without.

This will be gone into more fully at an adjourned meeting of the council next Monday night.

This was by far the best meeting of the council for many months and it begins to look like Marion was

going to get a fresh start and come

into her real position as the best

town in the best state of them all.

"TURKEY" WALKS OFF WITH THE MEET

Mrs. A. L. Charles passed away at the home of her daughter, Mrs. A. A. Myers of Benton, Kentucky, Thursday May 6. She had a fall some years ago from which she never recovered. She was a good Christian woman and was loved by all who knew her. She leaves three sons; Frank Charles, of this city, Marvin of Paducah, and W. E. of Dyscburg; also three daughters; Mrs. Joe Hill of Tilene, Mrs. Ben Hill of Centralia, Ill., and Mrs. A. Myers of Benton Kentucky. The remains were laid to rest beside her husband A. L. Charles who died a few years ago.

SOCIETY

The graduating class of 1920 were the guests of honor at an informal entertainment given at the basement of the Methodist church last Friday evening by the Junior class of the High School. Arrangements had been made to give the entertainment in a vacant house near Post Oak school house, which had been prepared but due to the rain it was impossible to get fifty people out there.

Despite the disappointment an enjoyable evening was spent by all. Music was furnished by the victrola and games were played. Refreshments were served at 10 o'clock consisting of sandwiches, deviled eggs, fruit salad, coca cola, and cake and ice cream.

Those present were: Mr. and Mrs. V. L. Christian, Miss Thompson, Mrs. J. H. Moore, and the Junior and Senior classes.

GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausaeas, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger.

Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

Carrollton, Ky.—"I suffered almost two years with female weakness. I couldn't ride, walk any distance, ride or take any exercise at all without resting. If I swept the door or did any kind of work it would bring my sickness on. I was weak and languid, had no energy, and life was a misery to me. I was under the care of a good physician for several months and tried other remedies. I had read of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking twelve bottles I found myself much improved and I took six more. I have never had any more trouble in that respect since. I have done all kinds of work at a present am an attendant at a State Hospital and am feeling fine. LADY LARKSPUR

By MEREDITH NICHOLSON

Copyright by Charles Scribner's Sons

COUNT MONTANI.

Synopsis.—Richard Searles, successful American playwright, confides to his friend, Bob Singleton, the fact that, inspired by the genius of a young actress whom he had seen in London, he has written a play, "Lady Larkspur," solely with the intention that she should interpret the leading character. This girl, Violet Dewing, has disappeared and Searles refuses to allow the play to be produced with anyone else in the part. Singleton has just returned (uninvited) from France, where he had been serving in the aviation corps. His uncle, Raymond Torrence, a wealthy man, had contracted a marriage a short time before his death, while on a visit to Japan. He left Singleton a comparatively small amount of money and the privilege of residence in the "garage" of his summer home, Barton-on-the-Sound, Connecticut. Mrs. Farnsworth is believed to be travelling in the Orient.

The household is made up of elderly employees of the Tyningham, a New York hotel, where Bashford made his home. By the terms of his will these people are to have a home at Barton for the rest of their lives. Singleton goes to Barton taking with him the manuscript of "Lady Larkspur." There he finds the household strangely upset, some of its members being suspected by their comrades of pro-Germanism. Antonio, head of the establishment, informs him that he has been perplexed by the somewhat mysterious visits of a stranger, apparently a foreigner, seeking Mrs. Bashford. Antonio has formed the suspicion that the household hold a guard for protection. Singleton reads "Lady Larkspur" with approval. "Aunt Alice" arrives unexpectedly, meets with a lively reception and turns out to be young and charming. Mrs. Farnsworth is her traveling companion. Torrence, Bashford's lawyer, suspects the two women and warns Singleton "Aunt Alice" may be an impostor.

It's so beautifully peaceful all about here," Alice murmured. "I feel that I never want to move again."

"That's a real tribute to America," Mrs. Farnsworth remarked; "for Alice dearly loves new scenes. She inherited a taste for travel from her father, who put some new places on the maps, you know."

I didn't know and I wanted to ask questions about Alice's father, but as though anxious to frustrate such inquiries my aunt asked how close we were to the place made famous by Israel Putnam's spectacular escape from the British. She had read the story and would motor to the scene, she declared. It was quite clear that there were chapters in her life that were not to be opened for my perusal. No sooner had I caught a glimpse of a promising page than the book was politely closed. A curtain hung between the immediate present at Barton-on-the-Sound and other scenes that you know."

He would have lived longer if he had! It was probably the poetry and fairies that attracted him to Mrs. Bashford."

"Yes, sir," he acquiesced with a gulp. "I suppose you're right, sir."

"You should be grateful to Mrs. Bashford for not bounting you all for the row you made last night. It could be done; in fact, Mr. Torrence has suggested that legal means could be found for getting rid of you."

"That would be very sad, sir," he said grimly.

"Isn't Mrs. Bashford kind to you? Hasn't she taken pains to make you all feel at home?"

"Well, yes, sir. But she's taken Elsie back into the house, and there's no work for her, there being two women in the laundry already; and she's told me Dutch must be given his old place in charge of the poultry; and both being Germans, you will recall."

"It's just her kind heart, you idiot! You've all been spoiled; that's what's the matter with you."

"It causes feeling; that's all, sir."

"It needn't cause it if you brace up and act like a man," I retorted. Then, sorry I had been so harsh, I added: "We must take good care of Mrs. Bashford, Antoine. It would be your old master's wish. It would be wise to keep a guard at the house for the present in case your mysterious stranger turns up again."

He couldn't have failed to note my change of tone about the unknown visitor, but he made no comment.

"The guard's set, sir; front and rear."

"While there's no danger whatever it's just as well to take no chances. Please tell the boys to send for me immediately at any hour of the night if they see any prowlers about."

"Very good, sir. But if you please, sir"—he had reached the garage and he lingered, fingering his hat nervously—"if that wasn't for the ladies taking about spirits, we'd all feel better, sir."

"You're far from being a fool, Antoine. Those ladies just play at believing in ghosts; you may be sure they wouldn't talk about it at table before strangers like you and me."

Though this seemed to impress him, a moment later, as I was drawing down the shades in my bedroom, I saw him running across the lawn like a frightened rabbit.

CHAPTER III.

A Fan.

The morning mail brought a letter from Searles acknowledging my congratulations on his play. While my enthusiastic praise pleased him, he was very sorrowful of my suggestions, seeming even more depressed than when he talked to me.

"It's impossible for me to plan other work. 'Lady Larkspur' are the soul of me. I'm done; finished, clean out of the running. There's only this to report. I had a letter from Dalton saying that some time ago he asked at the hotel where he sent the script of 'Lady Larkspur' to know whether Miss Dewing had sent a forwarding address. Her accumulated mail had been called for by some one whose identity was not disclosed. Of course that play is what I think it is and Miss Violet Dewing ever reads it she's going to jump for the telegraph office the moment she finishes the last act."

"Yes; quite easy. Count Montani is very anxious to see the porcelains."

"I wasn't referring to the pottery; but I shan't press the matter."

Brazil May Remove Capital.

A remarkable plan for the wholesale removal of the capital of a country is being considered in Brazil. It has been suggested that Rio de Janeiro be abandoned as the capital and an entirely new capital with all the accompaniments of an entirely new state established in the state of Guaya. It is proposed to make the change in the course of five or six years.

Most people are superstitious. With some the breaking of a looking glass means a gloomy foreboding. Peacock feathers were formerly considered bearers of sickness. The Greeks and Romans of ancient times put implicit trust in omens and never undertook enterprises of any moment without consulting the oracle.

For more than Forty Years
Cotton Growers have known that

POTASH PAYS

More than 11,651,200 Tons of Potash Salts had been imported and used in the United States in the 20 years previous to January, 1915, when shipments ceased. Of this 6,460,700 Tons consisted of

KAINIT

which the cotton grower knew was both a plant food and a preventive of blight and rust,—with it came also 1,312,400 Tons of

20 per cent
MANURE SALT

which has the same effects on Cotton, but which was used mainly in mixed fertilizers.

Shipments of both Kainit and Manure Salt have been resumed but the shortage of coal and cars and high freight rates make it more desirable to ship Manure Salt, which contains 20 per cent of actual Potash, instead of Kainit, which contains less than 13 per cent actual Potash.

MANURE SALT can be used as a side dressing on Cotton in just the same way as Kainit and will give the same results. Where you used 100 pounds of Kainit, you need to use but 62 pounds of Manure Salt, or 100 pounds of Manure Salt go as far as 161 pounds of Kainit.

MANURE SALT has been coming forward in considerable amounts and cotton growers, who cannot secure Kainit, should make an effort to get Manure Salt for side dressing to aid in making a big Cotton Crop.

Muriate of Potash

50 per cent actual Potash, has been coming forward also,—100 pounds of Muriate are equivalent to 400 pounds of Kainit or 250 pounds of Manure Salt.

These are the three

Standard GERMAN Potash Salts

that were always used in making cotton fertilizers and have been used for all these years with great profit and without any damage to the crop.

The supply is not at present as large as in former years, but there is enough to greatly increase the Cotton Crop if you insist on your dealer making the necessary effort to get it for you.

Falmouth.—After being dragged for some distance and seriously injured, Everett Grogan's life was saved when the lines, becoming entangled in a wheel, jerked the racing team to their haunches.

Hartford.—Returning from Dukehurst, Leonidas Smith and his two sisters were thrown into the river when their boat was upset by the current. All reached safety after being carried 75 yards.

Winchester.—By decision of the Court of Appeals, insurance companies lose their contention that the explosion of gas and not the accompanying fire in the Rupart-Stewart store was responsible for the \$6,300 loss.

Louisville.—A Distinguished Service Cross has been awarded Lewis R. Nunley, of Hulette, for extraordinary heroism in attacking a machine gun position, killing the crew single-handed and carrying the gun to American lines.

Danville.—Terms under which the famous Ceech will case was compromised and the special term of court terminated provide that each of the contestants shall receive \$15,000 and be entitled to total income from the estate during their lives.

Hartford.—Twenty suits were filed against the Cromwell branch of the American Co-operative Association, which conducts many stores throughout the country, on the alleged ground that the association has not fulfilled promises to those who took stock.

Burlington.—Numerous grass fires have resulted in this section from burning tobacco beds, the largest reported being on the Elmer Goodridge farm, where extensive territory was swept before the flames were controlled.

Lexington.—In her will, Mrs. Josephine Clay, author and noted breeder of thoroughbreds, entitles Ashland Farm during the life of her two daughters, and expresses the hope that the property will continue in the possession of the family.

Walton.—A detective agency has been employed to trace two men claiming to be from Cincinnati, who tried vainly to secure an automobile from a local garage on the ground that one was the owner and the other his attorney.

Frankfort.—Postcards will help build the War Mothers' Memorial Bridge, to span the Kentucky River in front of the Capitol, the painting of the projected structure having been reduced to electrotypes for the printer.

LEFT RECORD AS INVENTOR

English Marquis, Three Centuries Ago, Had Ideas for Projects at That Time Undreamed of.

One of the most curious books in English literature is that which bears the title, "A Century of Inventions," and whose author is Edward, marquis of Worcester, who died April 3, 1907. The book appears to have been written 12 years before his death, and consists of hundreds of descriptions of projects, none of them, however, so explicitly treated as to enable a modern adventurer to carry them out in practice.

In this book are to be found methods for secret writing, by cipher or inks of a peculiar nature; telegraphs or semaphores, explosive projectiles that would sink any ship, ships that would resist any explosive projectiles, floating gardens, a method of fixing shifting sands, a way to make a boat work against wind and tide, and many other curious contrivances.

Nothing came amiss to the mechanical marquis; neither were his projects mere dreams, for he had worked out in his own mind a clear conception of a steam engine, and is believed to have made a working model of one. His estate was filled with all sorts of machines for raising water to the top of the great tower by hydraulic power, and during the war he frightened away a troop of Roundheads by a display of these unknown powers.

The exact situation at Mazatlan and Topolobampo was not known here. There had been no report of disturbances at either place and latest advices said a federal force of 350 men and two cannon had arrived at Mazatlan.

Sonora state troops in rebellion against the Carranza government are known to be pushing on towards Mazatlan, the most important Mexican gateway on the Pacific. This force is now well south of Topolobampo, but whether a detachment had been deployed to make an assault there was not clear.

At the Navy Department it was said that the cruiser Salem and destroyer No. 276, the ships ordered to Mexico, were under instructions to investigate the situation. There are extensive American interests at Mazatlan, where the Mexico-California Steamship Company has its terminal. Word has been received at the offices of the company that both of the Mexican ports have been closed.

The cruiser Sacramento was at Frontera on April 19 and remained a short time. Some uneasiness was felt there at that time.

The wise man takes the first letters of the names of the prospective bride and groom and draws them together in various shapes, then meditating over the combination which is to decide whether the boy and girl are going to be happy in their marriage. If the drawing suggests in the imagination of the wise man a tree with many branches, he warmly recommends the alliance between the boy and girl as the drawing is supposed to promise them prosperity and, above all, a large family.

When the selection is made to the satisfaction of all concerned, the parents begin to discuss the dowry which, in the case of the Javanese, is supplied by the groom, consisting of dresses, food, household goods and other similar articles—Detroit News.

Conserve News Print.

New York.—The American News Publishers' Association pledged its members not to consume any more news print from May 1 to Dec. 31 next than they did in the corresponding period last year.

Sentenced For Grave Crime.

Atlanta.—Eight Camp Grant negro soldiers, convicted of criminal assault upon a young white woman at the camp in May, 1918, arrived at the federal penitentiary here under heavy military guard. The men are all life sentences.

Refuse to End Walkout.

Chicago.—Several thousand striking railroad workers at a mass meeting refused to take action to end the unauthorized walkout, now in its fourth week in the Chicago terminal district.

Exchange Prisoners.

Paris.—Representatives of France and the Russian soviet government have signed an agreement relative to the exchange and repatriation of prisoners of war held in each country.

NAVY DEPARTMENT TAKES ACTION TO PROTECT AMERICAN INTERESTS THERE.

SUMMERLIN TO MEX CAPITAL

Reported That a Federal General Has Joined Forces With Rebel Commander in the Great Oil Field District.

Washington.—Two warships from the Pacific fleet have been sent to Mexican waters to protect American citizens and interests at Mazatlan and Topolobampo. They were despatched from San Diego on orders from the Navy Department representatives at those two Mexican Pacific coasts.

A similar request came from the government agent at Frontera on the Gulf coast, but was not acted upon, pending further investigation of the situation there.

George T. Summerlin, American charge d'affaires at Mexico City, who has been consulting with Secretary Colby at the State Department, left for Mexico City, and it was understood his departure was hastened because of the situation in Mexico.

In official circles it was reported that Gen. Arnulfo Gomez, former federal commander at Tuxpan, Mexico, and Gen. Manuel Palaez, who for several years has commanded rebel forces in the oil fields, has joined forces against the Carranza government. They were reported on April 21 to be attacking the federal forces at Tuxpan. It was also said in official circles that Col. SOLAR SYSTEM MADE PLAIN

Illustration Given by Herschel Is Probably the Most Comprehensive Ever Devised.

Perhaps our most graphic picture of the solar system is given by Herschel. Imagine a circular field two and a half miles in diameter; place a library globe two feet in diameter in the very center; 82 feet away put a mustard seed. The globe would represent the sun and the mustard seed Mercury.

At a distance of 142 feet place a pea, and another at

Covington, Ky., May 10th, 1920.

For some time past it has been known to many of my Republican friends throughout the State that I would be a candidate for the Republican nomination for United States Senator.

I now desire to make public announcement of that fact.

I keenly appreciate the responsibility and importance of this high position, and, in the event of my election, I will give to the duties of this office the best there is in me, and will represent the people of Kentucky and the United States to the best of my ability.

I desire, also, to take advantage of this opportunity to express my sincere thanks to the many Republicans throughout the State who have, without solicitation on my part, so kindly and generously offered me their support.

Life holds much in store for us,
but it does't dish it out indiscriminately upon request.

It's always easy to take up a collection for charity--when the names are to appear in print.

Some people are always trying to annex the goose that lays the golden egg, while others are content with the egg.

No do not bring us a spud on subscription it might strain our bank account to make change.

Hiding their lights under a bushel is a favorite occupation with some people. But it's rough on the bushel.

Some people are so public spirited they want a dollar's worth of advertising for every nickel they spend in building up this town. They get it--and realize it when too late.

Yes it will pay you to push this town along. It will take you with it.

There's a world of contrast in some families. The old man laboriously works himself from the bottom to the top through years of toil and his sons start at the top and to begin to the bottom with a whoop.

When in doubt forget your doubts, Go ahead and do it. It's better to be wrong once in awhile than to be nothing all the time.

TEACHERS EXAMINATION

The first regular examination for elementary teachers certificates will be held on Friday and Saturday May 21st and 22nd.

As the law now provides the white and colored teachers will be examined at the same time and on the same questions. The white teachers will be in one room and the colored in another. One of the two examiners will be with the white teachers and the other with the colored. The County Superintendent will work where the most applicants are.

At the beginning of the examination each applicant will be given a number by which the applicant is to sign all his papers in that examination but the applicant's name should not be on the paper upon which he answers the questions. The applicant will give his address, age, and number of his oath, and on the back of his oath state the number of years he has taught, the number of years he has attended high school, normal school and college. Forty weeks will be counted as a year of attendance, twenty weeks a half year and ten weeks one fourth year.

Blank manuscripts upon which the applicant is to write the answers is now furnished by the state and will be given out as needed on the day of examination. Applicants who desire to use scratch paper must provide it for themselves.

Each applicant for an elementary certificate shall pay a fee of two dollars, which the County Superintendent is to forward to the state superintendent, who will use it in defraying the expenses of the examination.

An elementary certificate of the first grade shall require an average grade of eighty-five per centum upon all the subjects of the common school course and the lowest grade on any subject shall not be less than seventy per centum. No high school subjects will be added this year.

An applicant for a teachers certificate must be eighteen years of age before the day of the examination and must be known to be of good moral character.

At the close of the examination the applicants papers are to be collected and forwarded to the State Superintendent at Frankfort, where they are to be graded and the certificates issued. Certificates for each county are sent to the County Superintendent who shall deliver them to the applicants.

Fortune Telling by Bones.

It is strange that in the Transvaal the belief in Kaffir doctors and their wizardry has not died out. Nearly every old Kaffir has always with him a bag of bones, knuckles and joints of animals. With these he pretends to be able to foretell the future. He throws the "dolol" as they are called, and then reads out the omens. Should a white man wish to confer with the oracle, he must throw the bones himself. Many white men firmly believe in the ability of the Kaffir doctor to cure them from sundry ills, and in Rhodesia there have been many cases where the Kaffir doctors have saved whites from ravages of the terrible fevers that rage there, in addition to toothache and other

ailments.

"Anything in particular happened while I've been gone?" asked Mrs. Johnson, upon her return from the quilting bee.

"You betcha!" triumphantly replied Gap Johnson of Rumpus Ridge, who had remained at home. "Only one of the children fell out of a tree, one into the creek, and one got scalded; only three pulled something over onto themselves, just two got dog bit, but the dog set himself afire, and amongst 'em they had only seven fevers, and then few didn't amount to nuttin'!"—Kansas City Star.

TOUCHING TRIBUTE TO SALVATION AR.

Kentucky Marine, Now Sleeping at Chateau Thierry, Sent Beautiful Message Home to Loved Friend.

One dark night, shortly after the American marines had received their first baptism of blood at Chateau Thierry, a Kentucky boy, Gilbert Young, of Springfield, sat crouched in a dug out writing a letter home. In it he described to one of his dearest friends and former teachers, Prof. George Colvin, now State Superintendent of Public Instruction of Kentucky, the terrible ordeal through which he had passed unscathed.

In one paragraph of that letter, now a precious and treasured memorial, the young Kentucky marine told of the great work that had been done during those trying hours by the various welfare agencies. "But greatest of them all," he wrote, "the greatest and best of them all, God bless them forever, is the Salvation Army."

The body of Gilbert Young, the brave Kentucky boy, lies today at Chateau Thierry beneath theilles of France, but his soul, poured out to his friend, goes marching on in tune with the great work the Salvation Army is seeking to accomplish now that swords have been turned into plowshares and spears into pruning hooks.

The sacrifice of Gilbert Young and the hundreds of other young Kentuckians who gave their lives for liberty during the world struggle will cause many a heart in the great Blue Grass state to pour out its benediction upon the Salvation Army when money is solicited in the Second Home Service Appeal campaign May 10 to 20. The Salvation Army today as always stands ready to help wherever there is a need.

URGE KENTUCKIANS ON IN BIG DRIVE

State Conference Held to Arouse Interest in Salvation Army Home Service Appeal, May 10 to 20.

In preparation for the final drive in the Salvation Army's Second Home Service Appeal, May 10 to 20, in Kentucky and other states east of the Mississippi river, a state conference of workers was held in Louisville on Wednesday.

Judge Henry S. Barker, of Louisville, the state chairman, presided and the toastmaster was Ben S. Washer, of Louisville, vice chairman and former national president of the Young Men's Hebrew Association. Governor Edwin P. Morrow, honorary state chairman, could not be present but sent a telegram giving his hearty endorsement and urging Kentuckians to leave no stone unturned to put Kentucky in the forefront of states in contributions. Governor James S. Cox of Ohio was also prevented from attending and sent a telegram of endorsement.

Prominent workers from all parts of the state pledged themselves to do their best. Prof. George Colvin, State Superintendent of Public Instruction, delivered a splendid address in which he called upon all for renewed efforts in the big drive. Leading officers of the Salvation Army from this section told of their experiences in the actual work of the Army, most of them having served from 20 to 35 years in the ranks of this great organization.

Among other prominent workers in the Home Service Appeal are: Ben L. Bruner, secretary of the state executive committee; John H. Downing, treasurer; Dr. W. S. Lockhart, chairman of the speakers' bureau; Judge Walter V. Gregory, chairman of the publicity committee; Mrs. C. Malcolm Bullitt, Mayor George W. Elsesser Smith of Louisville, Hon. W. P. Lincoln, Marvin H. Lewis, Alvin T. Hert, Dr. E. L. Powell, Dr. E. Y. Mullins and Dr. Charles W. Welch.

FRIENDLY HOME FOR WOMEN IS HELPED

Salvation Army Does Fine Work in Louisville Institution For Women and Girls.

The Susan Speed Davis Friendly Home for Women in Louisville is controlled and operated by the Salvation Army and is one of the institutions to be helped by the money raised in the Home Service Appeal to be made by the Salvation Army, May 10 to 20.

Four times as many cases were cared for in this Home during the past year and during the year before. This work has been carried on in the face of trying difficulties. It has been necessary to remodel and refurbish the Home, and in spite of this many have been cared for. Forty-three girls and young women were cared for there during the past month. Only six percent of those cared for are under 18 years of age and many are under 14.

The Susan Speed Davis Home gives a welcome to all unfortunate girls and women, no matter from what part Kentucky they come.

Begin now to plan to attend the Chautauqua to be held in Marion this year. The program is to be the best one yet. True it is several weeks till time to attend Chautauqua but it is not too soon to talk Chautauqua with your neighbors, and either buy or have your season tickets reserved for you.

Let's make the Marion Chautauqua the biggest one in western Kentucky. This can easily be done if every one will take a hand in boosting it—and the best way to boost is to buy a season ticket for each member of your family—and influence your neighbor to do likewise. The cost is small and the returns big.

BIRTHDAY DINNER

Behold how good and how pleasant it is for brethren to dwell together in unity. This experience of David was beautifully illustrated at H. N. Lamb's on the third day of May when the writer and his better-half, with eighteen others, the majority of whom had passed the meridian of life, several with more than three score and ten years added to that life, met to do honor to and congratulate Aunt Sarah S. Lamb on her eighty-first birthday.

Aunt Sarah met us with a radiant smile and a cheerful greeting, as we gathered. She occupied, as she should, the center of the stage during the day, making herself active and much younger looking than her record tells. She has four living children, one son and two daughters, Cousin Lura, the wife of H. N. Lamb is the youngest of the three, there are thirty grand and thirteen great grand children.

She received as tokens of esteem number of nice gifts.

Nute and Lura did their part well furnishing a splendid dinner as well as making every thing enjoyable. Mr. Clinton Overby took a number of pictures in small and larger groups. At five o'clock we said good bye with wishes that Aunt Sarah will be permitted to enjoy other birthdays on her homeward move to her inheritance that fadeth not away.

Brunswick Principles In Fine Tire Making

The reason you are interested in the name on your tire is that it identifies the maker. By knowing the maker you can judge his ideals of manufacture.

The only secret of a super-tire lies in the principles of the maker. His standards decide the quality. For there are no secrets in the tire industry.

What you get depends on what is behind the name on your tire. Brunswick, as you know, means a very old concern, jealous of its good name. Since 1845 the House of Brunswick has been famous the world over for the quality of its products.

The Brunswick Tire is all that you expect—and more. Your first one will be a revelation. You'll agree that you've never known a better. And you'll tell your friends. So spreads the news among motorists. The Brunswick is the most welcome tire that ever came to market.

Try one Brunswick Tire. Learn how good a tire can be built. And remember, it costs no more than like-type tires.

Frantic With Pain

A Physical Wreck From Kidney Trouble, But DOAN'S MADE HER WELL.

"Kidney trouble made a complete wreck of me," says Mrs. Wm. Harvey, 62, N. Earth St., Grants Pass, Ore. "I was so debilitated and miserable it seemed I had nothing left to live for. Death would have been a welcome relief. For six months I was in bed and never expected to leave it alive. I was too weak to move without the help of my nurse and so nervous I screamed when she touched me. My back and head hurt like a throbbing toothache. I had awful dizzy spells, my eyesight failed, my hands and feet felt dead. I was pain racked all over. The kidney secretions looked like thick, black coffee and turned teeth black. Then I would stop passing and then my feet bloated like bags of water. I was frantic with pain, and thought I would lose my reason."

"I had lost all faith in medicine and tried *Dean's Kidney Pills* only because a dear friend asked me. Right from the start I began to feel better. *Dean's* cured me."

ARMENIA WOULD BE UNDER U.S. CONTROL

ALLIED SUPREME COUNCIL ASKS WILSON TO TAKE OVER MANDATE.

SYRIA WILL GO TO FRANCE

Great Britain Will Take Over Palestine and Protect Interests of Jews and Arabs—Jews to Retain Nationality.

San Remo, Italy.—The supreme council sent a formal request to President Wilson that the United States government take the mandate for Armenia. The council is leaving to President Wilson the arbitration of the differences over the boundaries of Armenia.

The council awarded a mandate for Mesopotamia and Palestine to Great Britain, and a mandate for Syria to France.

In placing Palestine under a British mandate the council established within the ancient limits of Holy Land what is called the "National home of the Jews."

The terms of the mandate protect the national rights of Jewish citizens of other countries. That is to say, a Jew or American, British, French or other nationality may retain his nationality, although he is also a citizen of the state of Palestine. The rights of Arabs also are protected, there being 600,000 in Palestine and 100,000 Jews. The mandate is limited generally by what is known as the Balfour declaration. British forces have been in occupation of Palestine since the defeat of the Turkish forces by the British field marshal, Viscount Allenby.

France has been the protector of the Christians in Syria since the middle ages; having been designated for the purpose by the holy see. The question with regard to Syria has been in serious controversy between the French and British governments since the armistice was signed, particularly over the point whether France should have all of what is geographically outlined as Syria, or only certain parts.

The text of the common declaration adopted by the allies at the close of the work of San Remo conference is as follows:

"It (Germany) has taken no steps to determine, as was provided in the protocol of the treaty its obligations concerning reparations in order to make propositions with the view of fixing the total amount which it must pay, despite the urgent character that a settlement of this sort presents in the interests of all the parties concerned. It seems to have not even considered how it can meet its obligations when they come due.

"The allies realize the difficulties met by the German government and do not seek to impose too narrow an interpretation of the treaty, but they are unanimous in declaring that they cannot tolerate a continuation of these infractions of the treaty of Versailles, that the treaty must be executed and remain as the basis of relations between Germany and the allies and that they are resolved to take all measures, even if necessary, the occupation of an additional part of German territory, in order to insure execution of the treaty. They affirm, however, that they have no intention of annexing any German territory.

"At the same time, the allies deem that questions arising from violations of the peace treaty as well as from the measures necessary to insure its execution would be more easily solved by exchanges of views between the chiefs of the governments than by note. Thus they decide to invite the chiefs of the German government to a direct conference with the chiefs of the allied governments and request that at the proposed meeting the German government present to them explanations and precise propositions upon all the subjects mentioned in the foregoing."

ALLIES ARE FIRM WITH GERMANY

SUPREME COUNCIL GIVES NOTICE THAT DECISIVE STEPS WILL BE TAKEN.

MAY OCCUPY TERRITORY

In Closing Hours Council Adopted Note to President Wilson Explaining Cannot Adopt His Solution of Turkish Question.

San Remo, Italy.—The supreme council sent a formal request to President Wilson that the United States government take the mandate for Armenia. The council is leaving to President Wilson the arbitration of the differences over the boundaries of Armenia.

The council awarded a mandate for Mesopotamia and Palestine to Great Britain, and a mandate for Syria to France.

In placing Palestine under a British mandate the council established within the ancient limits of Holy Land what is called the "National home of the Jews."

The declaration is blunt and to the point, and completely dashes the expectations of German sympathizers that the rupture between the allies would be widened by the San Remo conference. Germany is told that further infractions of the treaty terms will be intolerable.

Premier Lloyd George said that he regarded the San Remo conference as the most successful yet held by the supreme council, and declared that the measures adopted seem to assure a restoration of order and peace.

In the closing hours the council passed upon two notes to the American government, one explaining why President Wilson's latest Turkish note could not be followed and the other on the Armenian mandate and boundaries. A new note to Germany was also approved. It will be communicated by Signor Nitti, president of the council.

The text of the common declaration adopted by the allies at the close of the work of San Remo conference is as follows:

"It (Germany) has taken no steps to determine, as was provided in the protocol of the treaty its obligations concerning reparations in order to make propositions with the view of fixing the total amount which it must pay, despite the urgent character that a settlement of this sort presents in the interests of all the parties concerned. It seems to have not even considered how it can meet its obligations when they come due.

Welcome Relief From the Tortures of Rheumatism

Can Come Only From the Proper Treatment.

Many forms of rheumatism are caused by millions of tiny germs that infest the blood, and until the blood is absolutely freed of these germs, there is no real relief in sight.

The most satisfactory remedy for rheumatism is S. S. S., because it is one of the most thorough blood purifiers known to medical science. This fine old remedy cleanses the blood of impurities, and acts as an antidote to the germ of rheumatism. S. S. S. is an excellent system-cleanser; it is not sold or recommended for venereal diseases.

S. S. S. is sold by druggists everywhere. For valuable literature and advice address Chief Medical Adviser, 107 Swift Laboratory, Atlanta, Ga.

BELOVED GOLF CAME FIRST

Little Things Like Marital Ties and the Demands of Business Didn't Worry These Devotees.

A golfer's wife had just told her husband that she intended to leave him forever, not because he was a golfer, but for some other reason.

"Will nothing alter your decision? Will nothing induce you to stay?" he asked.

The wife was obstinate.

"Well, he said, 'It is a terrible shock, but while you are packing, I think I will go out on the lawn and do a little putting!'

This is reminiscent of a story of one of the heroes of golf, an Edinburgh innkeeper who lived a hundred years ago or thereabouts. He was so devoted to the game that he started playing at dawn and was seen at night putting on the greens by the light of a candle. At last his wife applied for a separation on the ground that her husband was not attending to his business.

He went to the court, admitted the impeachment, and said: "She can have all I got if she will give me so much a year to buy golf balls. She can look after the business!"

GOOD STYLE IN SUMMER WRAPS

CLOTHES and sweaters, for spring and summer wear, reveal a great variety in designs with very few freakish or ungraceful models among them. The standard of "style" is high; that is, in color and form the new outer garments are artistic and pleasing and there are models for all personalities. The sweaters and sweater coats preserve the characteristics of sports garments, but have taken on additional dignity by using elegant materials and adopting the required lines. This fits them to play more than one role, for street dress with a sports dress flavor is among the things that have arrived to spend the summer with us.

A great many cape-like wraps, and modifications of the cape, are displayed for summer wear. These are long and have big collars, as a rule, some of them to be correctly described as huge. A few have moderate collars or summer furs; squirrel being a favorite. The faking for long capacious wraps has survived the winter.

Even coats often emphasize the dominance of the cape by introducing the

semblance of one in their composition. An example of this appears in the wrap shown above with a shallow yoke at the top, supporting a short cape at the back that is merged into sleeves. Parallel rows of stitching and very large buttons call attention to this set-on cape and large buttons on the sleeves ask that they be not overdone. The coat has patch pockets at the front end reaches within six inches of the bottom of the skirt. It is provided with a muffler collar, for which there is plenty of need in the mountains and on the shore.

Handsome sweater coats of silk jersey or other silk weaves are displayed both in gay and in sedate colors. Even black is very smart this season in these coats and commands itself for wear with separate skirts on the street.

The model shown in the picture is double-breasted and has employed angora cloth for a wide convertible collar and deep border at the bottom in which pockets are formed at each side. A girdle of the material ends in long silk tassels.

Ginghams Return With Summer

MORNING dresses or utility dresses or porch dresses, as they are variously called, made of gingham, chambray, percale and other cottons, have soared in price until they bring as much as wool or silk frocks did in pre-war days. The high cost of labor, more than anything else, has brought them up to the point where there is a very great saving in making them at home, and in addition to the saving there are other good reasons why mothers and daughters should do this work for themselves. Ordinary needlework ought to be a part of every girl's training and cotton house dresses or school dresses offer chances for learning what it is certain most women will some day need to know.

For the aspiring flapper there are such pretty frocks of gingham as those shown here, to lure her into learning how to use a needle. They could hardly be more simple, but they are neat and crisp looking and suggest all sorts of good times in summer weather. Such dresses are often made with gingham hats to match or hats of white organdy are provided for wear with them. And just lately adorable and frivolous sunbonnets have returned from a long exile, to take the place of summer sunshades.

The colorings in the plaid and

checked ginghams are more than ever attractive this year. An indistinct plaid in the picture has a rather short skirt for the young person who likes this mode—a plain waist with round neck and three-quarter length sleeves. A wide belt looks well and fits nicely, cut on the bias of the goods. For embellishment there are flat pearl buttons set on the waist and skirt and a round plique collar. The other dress is made with a plain skirt and a coat with diagonal opening at the front. Its edges are piped with white plique, which also makes the shaped collar. Pockets cut on the bias, flat pearl buttons and pipings of white give this frock a neat finish.

The Newest Negligees.

Chinese suggestions are worked out effectively in many of the newest negligee garments. One model recently displayed appeared to be an exact replica of the costume of a Chinese lady. It consisted of a plaited skirt and loose-fitting jacket of black satin, the latter embroidered in dull blues and greens.

Spring Coats.

It is a matter of choice this year whether or not a coat is lined. The materials popular during the winter, devore, penchloom and similar weaves, are equally good for spring coats, sans lining or with a new silk lining which is very suitable for the purpose. But not all the new coats are long. Any number of three-quarter models are no more than suit length. These very short coats are in box effects with flaring sleeves and usually have pretty colored linings.

Ribbon-Trimmed Etons.

A cheerful touch for a navy serge made with Eton jacket is introduced in the use of cerise pleated ribbon which edges the skirt ruffle and the lapped across jacket ends, under which shows a white plique waistcoat. The turn-back cuffs and collar are also plique.

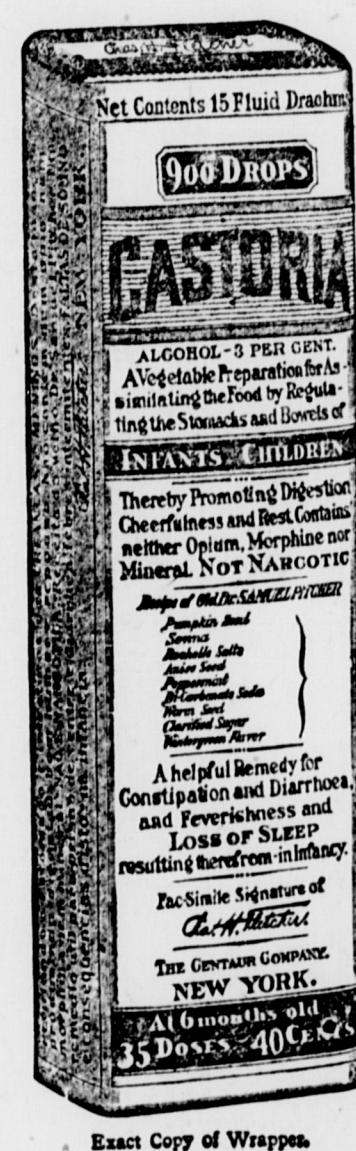

Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond.

But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies.

Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly!

Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and Children.

Children Cry For

Fletcher's

CASTORIA

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splash, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little-one.

There are substitutes and imitations as there are for the diamond, for anything of value. One might almost say that that which is not copied has no value. So you have had the signature of Chas. H. Fletcher and a copy of the genuine wrapper kept constantly before you that you may guard against the false and the untrue.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

A Jawbreaker.

"What dreadful name are you applying to that man?"

"Merely his own," responded the Russian courteously.

MODART CORSETS

Front Laced

Quality Lines Workman- ship

We ask you to compare MODART Corsets, front laced, with any other corsets. We ask you to compare for Quality, Lines, Workmanship.

And when you have given it a thorough, impartial test by wearing it—we will leave it to your judgment whether or not there is any other front-laced corset in the MODART class.

We chose to specialize on the MODART front-laced corset—to feature it in our advertising, to recommend it to our customers—only after a thorough study and search of the corset field. And only after we were convinced that no other front-laced corsets compared with the MODART in quality and fine-fitting features, did we choose them.

Our expert, scientific corset fitting service always at your free disposal.
